YOUR 'ONE STOP' DESTINATION

conferencing

From high impact product launches to large exhibitions and trade shows, Avcom Staging is able to tailor packages to meet every client's needs.

We assist all our clients in designing and creating a conference package to suit their specific needs utilising state-of-the-art technology. Regardless of the complexity, size or scope of an event, Avcom Staging has a broad range of conference services readily available. From producing large conferences for thousands of delegates to personalised board room meetings, we've got you covered.

Each conferencing client has a dedicated Senior Technical Producer/Director assigned to their event, right through from inception to invoicing. This standard company policy ensures a consistent quality of service is maintained throughout our client's entire experience with Avcom Staging.

Whether you choose to use a conventional conference room layout or require a unique conference setting, Avcom Staging will design and provide floor plans to suit. We can create a cost-effective "look" allowing versatility in meeting your conference needs whilst giving your meeting a truly unique appearance.

innovate

themed events

Encompassing a vast range of themed options, including imaginative table décor, themed props and backdrops, Avcom Staging can combine these settings with dramatic lighting and visual effects to create a number of extravagant themed experiences for your next event. Our cost effective themed event packages can be tailor made to suit all event scopes and budgets.

Captivate with the mystique of Medieval times

Enchant with a taste of Far East Asia

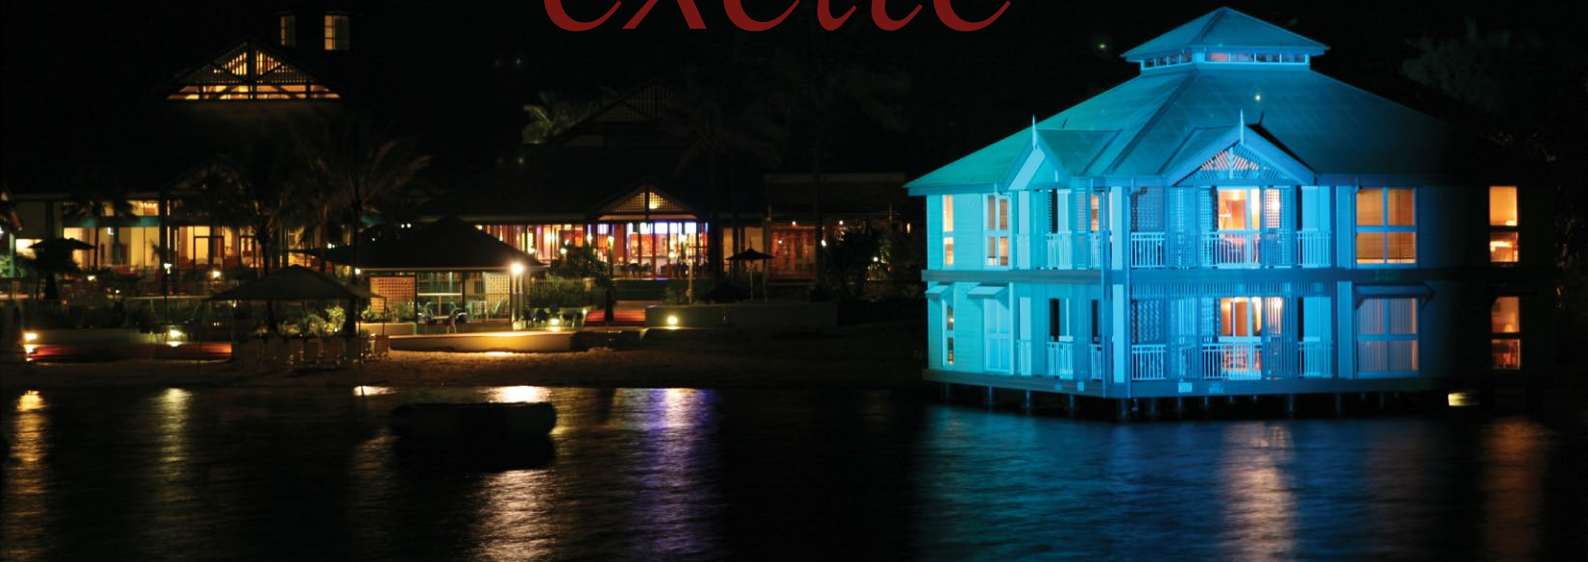

Bedazzle with the glitz of Hollywood

Unwind with an elegant beach dinner

These are just a small selection of the themes we can bring to life with our extensive array of quality themed equipment.

excite

platform stages

Avcom Staging offers a range of stages and dance floors for corporate events, fashion shows, exhibitions, product launches, special events and more. Available in single and multiple deck configurations, all staging decks interconnect securely to form safe and level platforms. Features such as stairs, guardrails, chair stops, skirting and matte black finished surfaces with a nonslip texture, are available to ensure safety and stability.

FASHION PARADES

All stages are 100% Australian made and

Catwalks can be customised to form any configuration or size

TRADE SHOWS & EXHIBITIONS

comply with the exacting Australian standards AS/NZS117

Stand out with custom stages and platforms for your presentation

CONFERENCES & PRODUCT LAUNCHES

0.1:2002, AS4100:1988, AS/NZS1576M 1:1995.

Professional stages and accessories are available for any event size

DANCE FLOORS

Organised by Acclaim

specialist services

Speaker Support Slide Creation

In addition to collecting and collating laptop presentations, Avcom Staging can create computer generated slides incorporating client logos and themes prior to the commencement of your conference.

Panoramic Projection

Image-blend technology allows for the creation and manipulation of stunning panoramic wide-screen images suitable for themed events, gala dinners, conferences, product launches and much, much more.

Water Screen

For events which require real "Wow Factor", this apparatus boasts viewing sizes of up to 35 metres wide and 20 metres high with images generated by Barco SLM Digital Projectors.

Video Production/Editing

Avcom Staging can provide a full or partial digital quality recording of your event produced to DVD, with duplication and labeling services also available.

Video Conferencing

Video conferencing services are available to connect you with your colleagues via real-time two way communication.

Inductive Loop & Infrared Hearing

The compact and portable Inductive Loop and Infrared Hearing System puts people with hearing disabilities in touch with what is happening around them - by transmitting spoken words directly to their hearing aid or to an inductive loop and/or infrared receiver.
