by Avcom Staging

As one of Australia's leading event staging organisations, Avcom Staging specialises in supplying first class technical and creative event services to a diverse range of clients from both national and international origins.

Established in 1992, Avcom Staging draws from over 25 years experience within the corporate event staging industry. Offering the finest audio-visual, lighting, stage and theming equipment, our teams of experienced technicians are dedicated to providing exceptional service to each and every client. Avcom Staging offers a full range of technical event support, as well as comprehensive venue information services, making Avcom Staging a "One-Stop-Shop" for your event.

Our primary services range from staging conferences, themed events, gala dinners, awards presentations, product launches to board room meetings. We offer all of these services right across Australia through long-standing national affiliations.

# innovate

From a high impact product launch to a large exhibition or trade show, Avcom Staging is able to tailor packages to meet every clients needs.

### Conferencing

We assist all our clients in designing and creating a conference package to suit their specific needs utilising state-of-the-art technology. Regardless of the complexity, size and/or scope of your event, Avcom Staging has a broad range of conference equipment available. From extensive experience in producing large conferences for thousands of delegates to personalised board room meetings, we've got you covered.

Each conferencing group has a dedicated Senior Technical Director/Technician assigned to all of their events. This standard company policy ensures a consistent quality of service is maintained throughout your entire conference.

### Conference Sets

Whether you choose to use a conventional conference room layout or require a unique conference setting, Avcom Staging will design and provide floor plans to suit. We can create a cost-effective "look" allowing versatility in meeting your conference needs whilst giving your meeting a truly individual appearance.

## Specialist Services

### Video Production/Editing

Avcom Staging will provide a full or partial digital quality recording of your event produced to DVD. Duplication and labelling services are also available.

### Panoramic Projection

Image-blend technology allows for the creation and manipulation of stunning panoramic wide-screen images suitable for themed events, gala dinners, conferences, product launches and much, much more.

### Video Conferencing

Video conferencing is available to all clients.

### Speaker Support Slide Creation

In addition to collecting and collating laptop presentations, Avcom Staging can create computer generated slides incorporating client logos and themes prior to the commencement of your conference.
