AVCOM ARRIVES AT CROWNE PLAZA PELICAN WATERS

In July, Avcom Staging was invited to join the team at Crowne Plaza Pelican Waters Golf Resort and Spa as their in-house audio-visual supplier. Over the past two months, our team has been producing the highest quality events in the resort's six conference rooms and various outdoor locations. Stay tuned for more articles on Crowne Plaza Pelican Waters events in our upcoming newsletters.

For further information, please contact our Crowne Plaza Pelican Waters team on 07 5408 0907 or cppw@avcomstaging.com.

WELLA & SEBASTIAN NATIONAL SALES CONFERENCE

Sydney based event company, *Unlimited Event Management* organised the 2008 ANZ Wella and Sebastian National Sales Conference which was held at Novotel Twin Waters Resort on 17 July. The conference kicked off with an outdoor welcome dinner complete with Salsa Band and 'Fire and Ice' show. Approximately 100 delegates attended two days of conferencing at the resort with all audio, lighting and video supplied by Avcom Staging.

Following a large beach party on the second night of the conference, the final night wrapped up with an impressive themed dinner. The resort's premier restaurant, Lily's on the Lagoon, was transformed into a 70's disco night with moving lights, effects lights and burgundy velvet drapes. Adding to the ambiance of the night, an array of performers provided entertainment throughout the evening.

The event was a great success, although our team did encounter one challenge during setup for the final dinner. Due to the necessity of producing a dynamic and vibrant light show, additional power was required in the venue. Our Operations Team was required to adopt more efficient power management without detracting from the theme of the night. By utilising intelligent lighting and control, all visual effects were executed flawlessly and the end result was a stunning 70's disco night enjoyed by all.

SPYDER SYSTEM

Over the past month, our Spyder system has been used in a number of large events. One event of notable mention was the Retravision Conference produced by *A Noble Event*. Their vision for the event was to incorporate multiple picture-in-pictures (PiPs) on top of a 25 metre background. Our Spyder system was used to provide real time manipulation of any one PiP. The Spyder's versatility and flexibility allowed each PiP to fade in and out, or fly across the main image. For inputs, our team used 6 cameras all on individual inputs to the Spyder, a PGM mix from a vision mixer and laptops for PowerPoint slides.

Retravision Conference - Event Production by A Noble Event

Spyder is the perfect tool to enhance conference presentations, product launches, gala events, awards presentations and the like. Spyder is extremely versatile, adapting perfectly to all widescreen applications creating dynamic visual effects as seen above. For further information please email sales@avcomstaging.com

AVCOM JOINS THE TEAM AT SURFAIR MARCOOLA BEACH

Avcom Staging has been officially invited to SurfAir Marcoola Beach as their in-house audio-visual supplier. SurfAir Marcoola Beach is the perfect location for conferences and events, with seven conference rooms and numerous outdoor locations. Stay tuned for more articles on SurfAir Marcoola Beach events in our upcoming newsletters.

For further information, please contact our SurfAir Marcoola Beach team on 07 5408 0907 or suncoast@avcomstaging.com.

MINING CONFERENCE

Conference Organisers *Acclaim Special Events and Meeting Management*, engaged the services of Avcom Staging to provide the AV for their client at the Mining Industry Conference held in Townsville. From 17th to 20th August, conferences, meetings and awards presentations were held at the Townsville Entertainment and Convention Centre and Jupiters Townsville Hotel and Casino. Over 700 delegates attended the conference which involved four breakout rooms, a conference dinner and an offsite dinner.

Seven tonnes of audio, video and lighting equipment was taken to Townsville from our Brisbane Head Office for the four day conference. The entire convention was run in full digital projection with our Barco R12's used to provide high-end digital images. The main conference was set up with two 20 foot wide by 15 foot high screens as seen below. Over the four days, our team was commended for their high level of performance throughout the conference.

“Over the past 12 years, the team at Avcom Staging have become ‘family’ working with us on our Conferences all around Australia. Excellent quality AV is a must for any Conference we do and we rely on the partnership between Acclaim and Avcom to produce seamless production often in the most unlikely of places and sometimes under great pressure. Working as a team we have produced some excellent results which we expect will continue for many years to come.”
